Collin County Winlink 2000 Exercise

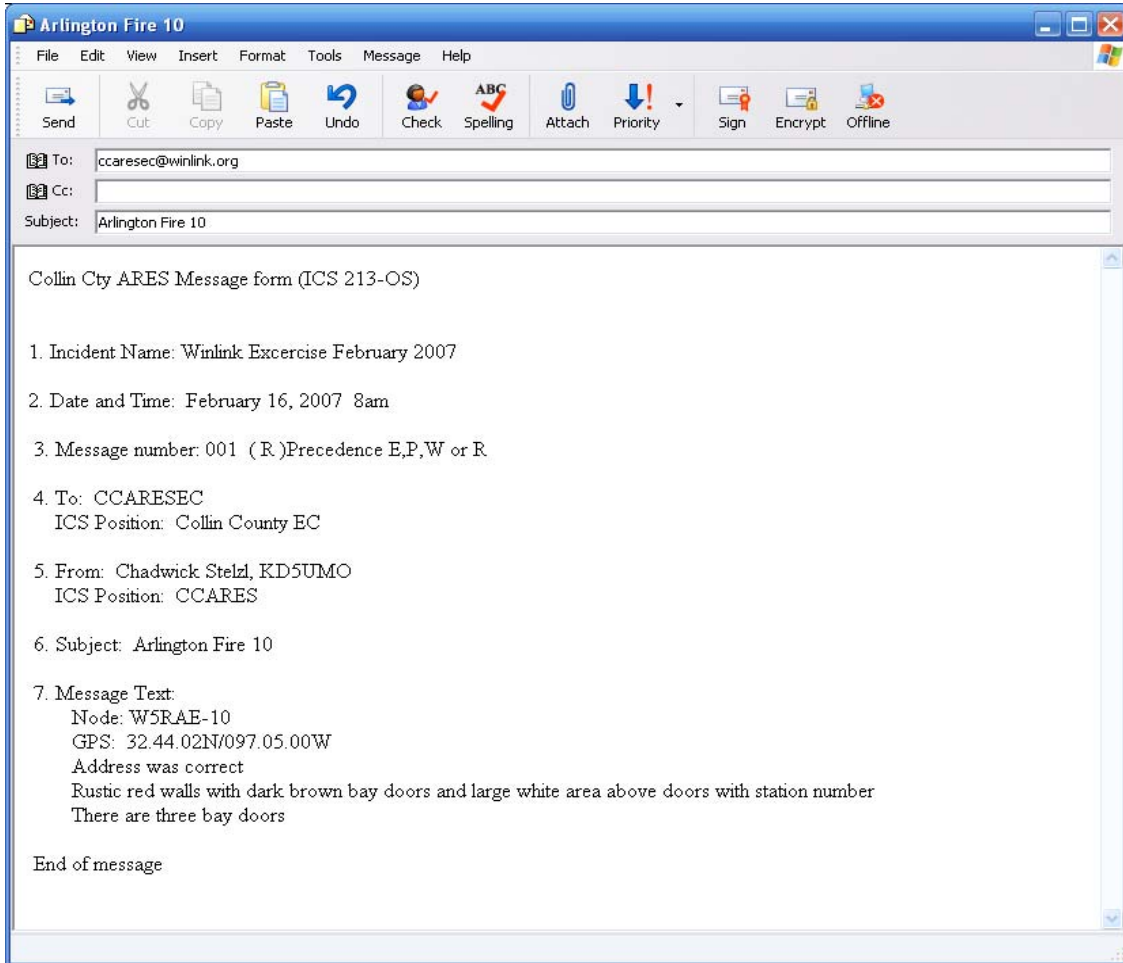

- Schedule: The month of February 2007
- Purpose: Promote and exercise WL2K
- Objective: Photograph, log and verify locations of served agencies and PODS in Collin County using provided served agency and POD lists. Each participant shall photograph and verify the location and log the GPS (Lat/Long) coordinates. Attach a photo to a WL2K message and send.

For those that do not have photo taking or GPS capability, complete all the above and replace the GPS coordinates and photo with a description of the appearance of the building (color, composition) and the number of bay doors that exit the street.

- Task:
 - Perform the following at a minimum of 4 different locations
 - Photograph the exterior of the building facing the main road, zoom in to capture mostly the building
 - Adjust (or take) photo resolution of 640 x 480 with a file size of 20-25KB
 - Subject line example (correspond with photo being sent): Arlington Fire 10
 - Text of e-mail to include:
 - Node connecting to (the nodes are below, suffix with a -10. Ex. N5BYL-10)
 - GPS coordinates (if available) Lat/Long (xx.xx.xxN),(xxx.xx.xxW)
 - Was the address and location provided correct?
 - Send message via RF to a reachable Telpac Node
 - Send to **ccaresec@winlink.org**
 - When your task is complete, send an additional message detailing whether or not you were able to connect to the node(s) from the agencies or PODS.
